Domestic Relations Case Management Order
ALLOCATION OF PARENTAL RESPONSIBILITIES (PARENTS)

Weld County 2.16.18

**ADVISEMENT OF AVAILABLE
DOMESTIC VIOLENCE SERVICES:**

Domestic violence is a pervasive problem in society. A significant portion of domestic violence in society occurs in or near the home. Research shows that children in a home where domestic violence occurs are at greater risk of emotional, psychological, and physical harm. Studies have found that eighty to ninety percent of the children living in homes with domestic violence are aware of the violence. Emerging research has established that these children are at greater risk of the following: psychological, social, and behavioral problems; higher rates of academic problems; more physical illnesses, particularly stress-associated disorders; and a greater propensity to exhibit aggressive and violent behavior, sometimes carrying violent and violence-tolerant roles to their adult relationships. Studies have also noted that children are affected to varying degrees by witnessing violence in the home, and each child should be assessed on an independent basis.

If your case involves domestic violence, you are strongly encouraged to obtain an assessment, counseling, or other available services for your family. If you are on a limited income, or cannot afford such services, then financial assistance may be available to cover some or all of the costs. Call the following for domestic violence services and potential financial resources available in your area:
